

## Link Exchange

Last Updated Wednesday, 05 July 2006

### Guidelines

We welcome a link exchange with other content-related websites (health, fitness, New Orleans, Louisiana, healthcare practitioners, attorneys, etc.). If you would like to exchange links with us:

1. Please place our link on your website before contacting us. Add our link to your web site as follows:

TITLE: New Orleans Chiropractic

URL: <http://www.neworleanschiropractic.net>

DESCRIPTION: Dr. DuBois is an expert in chiropractic adjustment, TBM and applied kinesiology. Whether for pain relief or wellness - New Orleans Chiropractor Dr. DuBois takes a holistic approach to chiropractic healthcare and he can help.

2. After our link is added, please send us an email to marketing at [neworleanschiropractic.net](mailto:marketing@neworleanschiropractic.net) with the following information:

- Your name and email address
- Your website's title, URL and brief description (limit description to 240 characters please)
- The URL of where the link to us is located

We will review your link, typically within 1 week. We will email you to let you know if your link has been accepted.

Before you submit your web site, please note:

- We only accept link exchanges from search engine friendly pages.
- Our link must remain on the same page where it was first included.
- New Orleans Chiropractic reserves the right to reject any link exchange request.

3. Not sure if Link Exchange is right for you?

Reciprocal links from content related web sites are important to improve your web site ranking, particularly in Google, and are also an important source of information for potential visitors of all participant web sites.
